Phone number: 010-8201396  
Course: SECJH

Comments by Grader:

The visit to UTMDigital left a positive impression, offering a comprehensive insight into the digital aspects of UTM. The activities conducted during the visit proved to be highly beneficial for students, providing a practical understanding of the course material and fostering excitement about the technological landscape at UTM.

The hands-on experience of exploring various rooms, including the data center, TM, and digital care, was useful in translating theoretical knowledge into practical applications. Learning about server operations and Huawei Ideahub's technology directly contributed to our understanding of digital processes relevant to the course.

The impact of these activities on the course outcome was evident as they bridged the gap between theoretical concepts and real-world applications. Understanding how UTMDigital handles complaints and the overall management of digital infrastructure was insightful and will likely enhance our performance in the course.

The visit sparked excitement and interest among students by showcasing the cutting-edge technologies used at UTM. Witnessing the dedication and expertise of UTMDigital staff further motivated our interest in the subject matter. The staff's helpful and supportive attitude made the learning experience more enriching, as they effectively communicated complex concepts, ensuring that all students could grasp the information.

Attending the talk and interacting with UTMDigital staff not only provided new knowledge but also offered valuable experiences. Learning about the organization's commitment to staying technologically advanced and its role in addressing challenges across UTM was particularly impactful.

In conclusion, the UTMDigital visit significantly contributed to our learning experience, offering practical insights that will undoubtedly enhance our understanding of the course material. The visit successfully combined theoretical knowledge with hands-on experiences, making it a valuable and impactful event for students.
